**Presents**  
**Soft Skills Schools Initiative (S3)**

*Soft Skills are a compliment to technical skills and include a blend of credibility, likability and most importantly authenticity. Soft Skills include communication, teamwork, listening, problem-solving, conflict resolution, leadership coaching and emotional intelligence.*

*-Greg Coker*

**SOFT SKILLS**  
**SCHOOLS**

KEDC is partnering with Greg Coker, author of *Building Cathedrals* and *Soft Skills Bootcamp* to create the **Soft Skills Schools Initiative**. Beginning in the summer of 2018, Mr. Coker will conduct three S3 Ambassador regional trainings for KEDC districts. This three-day training will immerse participants in the key concepts of soft skills through engaging them as an active learner and facilitating conversations around school and classroom applications. The S3 Ambassador will be able to guide his/her district as they implement the S3 Initiative throughout their staff and schools.
